Keonekai Villages - Market Report

April 2024

Aloha Keonekai Villages Community! Mateo Manzari here, your Keonekai Villages Board President and resident for over 9 years. I'm committed to providing our owners with expert insights and the very best in real estate representation. I hope you enjoy this month's Market Report!

The Keonekai Villages market continues to heat up! This past month saw our highest 2/1.5 unit close for a record \$790k, with another close behind at \$770k. This demonstrates a significant increase in condo values within our community. There has never been a better time to sell.

However, we're still seeing improperly priced units linger on the market. If your unit hasn't sold in the first 2 weeks, either your price or your marketing is sub-par. Choosing a realtor who understands Keonekai Villages' unique pricing dynamics is crucial for a successful, timely sale.

Pro Tip: Our price-point is great for investors and cash buyers. It is even possible to go from listing to closing in under 3 weeks – a feat I accomplished just last month!
